
Finding Your Dream
Are you dreaming of your future?

〈Table of Contents〉

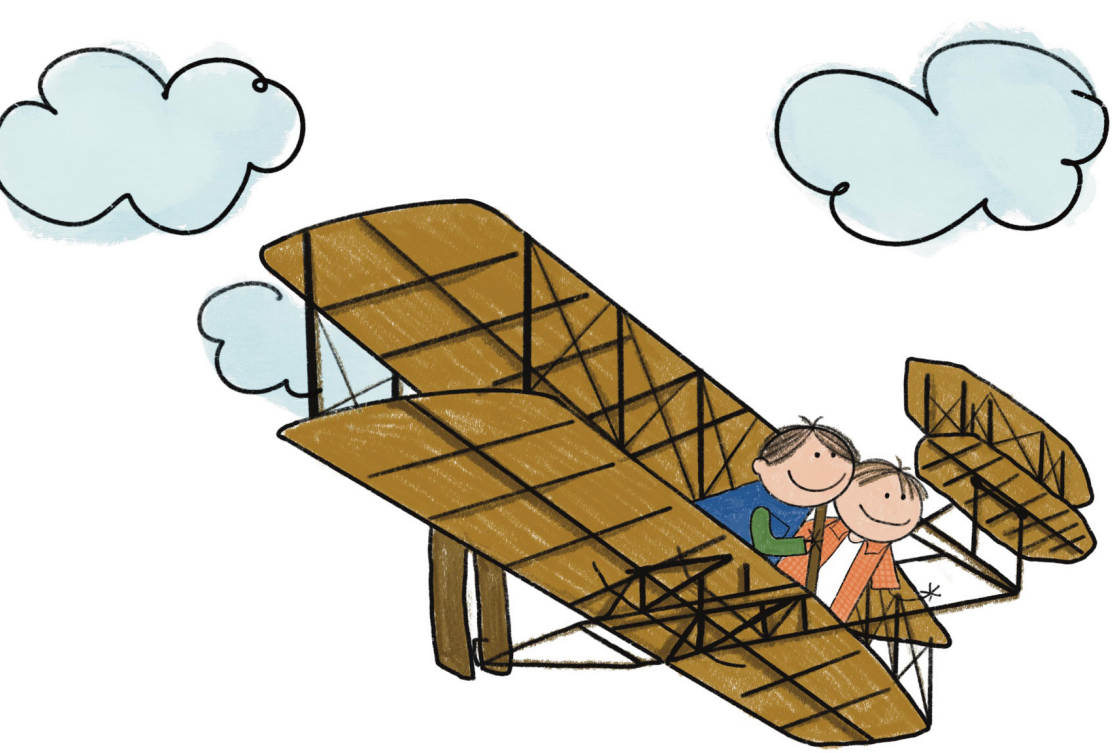

Have you heard about the Wright Brothers?

They dreamed of flying when they saw a toy helicopter their dad gave them.

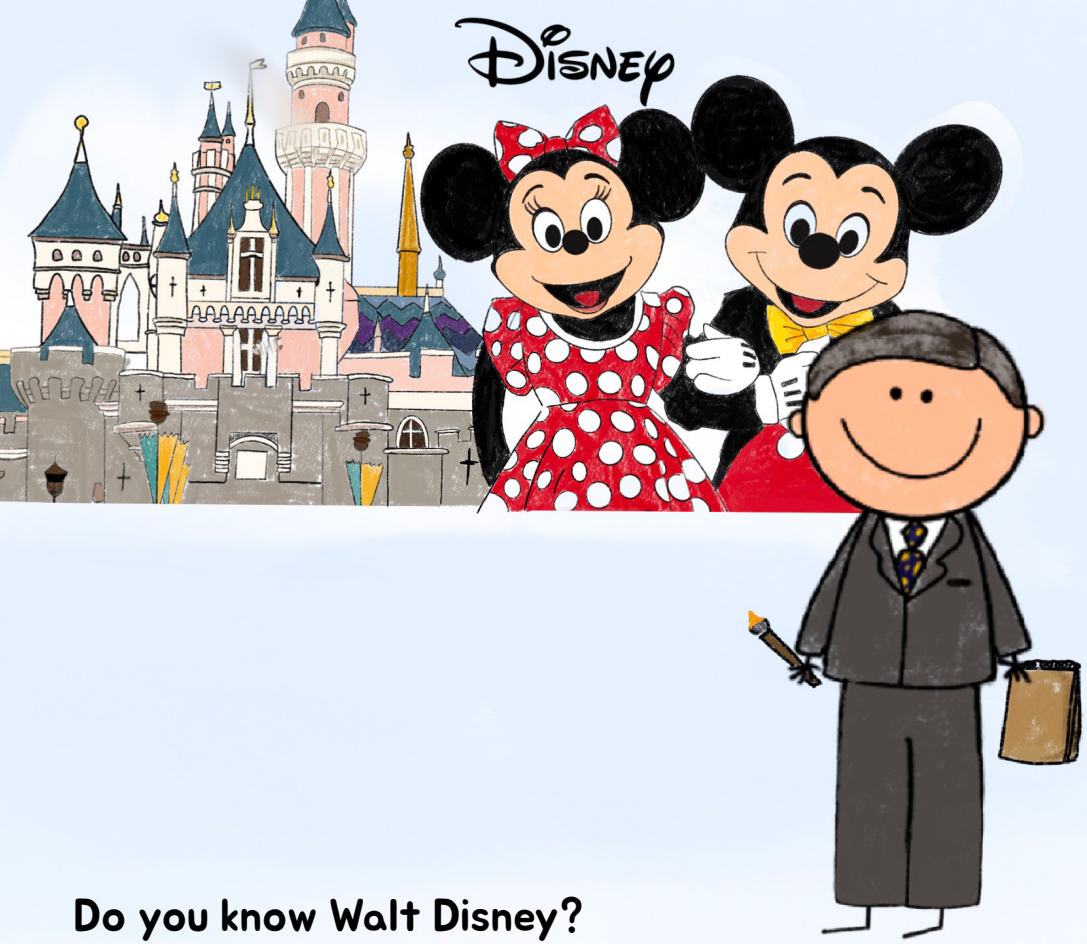

They spent a long time studying and faced many failures to make an airplane.

But, with all their hard work, they finally succeeded!

Thanks to them, we can now fly in airplanes. If the Wright Brothers had given up, we might have had to wait much longer for airplanes.

Do you know Walt Disney?

He dreamed of creating art, but he faced difficulties due to his poor family and his dad's disapproval.

It wasn't easy, but he overcame challenges and created the Disney we know today.

Thanks to him, we enjoy fun animated movies.

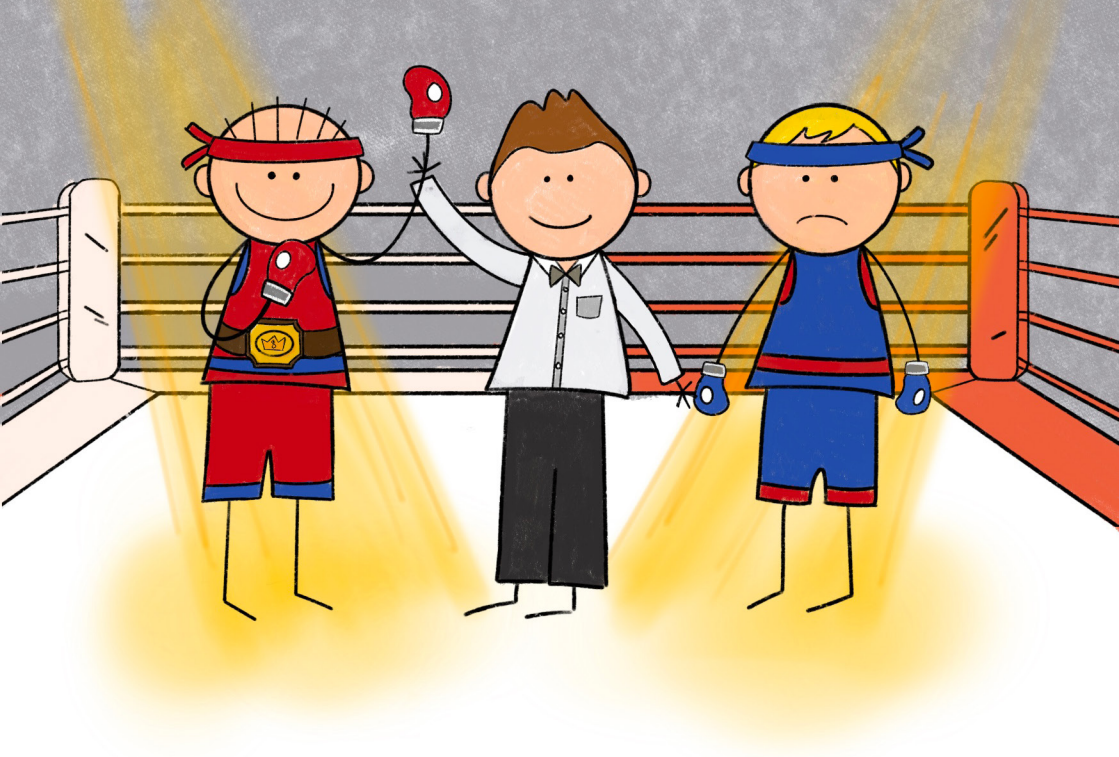

Audrey Hepburn, have you heard of her?

When she was 10, the Second World War happened. Her village was taken over by the German army, and there wasn't enough food.

During her tough life, she searched through garbage and suffered from malnutrition.

Despite a tough life, she was cast in a musical and went on to leave behind wonderful works through many performances.

Manny Pacquiao, do you know him?

Manny Pacquiao was born in the village of Kibawe in the Philippines and grew up very poor. To escape poverty, Pacquiao dreamed of becoming a boxer.

With strong determination and talent, he became an 8-division world champion.

Having dreams can truly change your future.

Wouldn't you like to dream a cool dream too?

What Dreaming Means

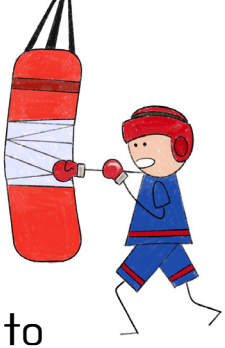

People who dream don't give up. Dreaming helps us be strong even when things are hard. It makes us want to try our best and work towards what we want.

Dreaming is about having hope and goals, planning our lives.

Just like the saying, 'Those who dream are beautiful,' dreaming is indeed a precious thing.

.

Making Dreams Come True

But dreams don't just happen.
To make dreams come true, you need to learn and study.

The Wright Brothers learned about the wind to fly airplanes.
Walt Disney practiced drawing to make animations.
Audrey Hepburn studied acting to be an actress.
Manny Pacquiao trained hard to be a good boxer.

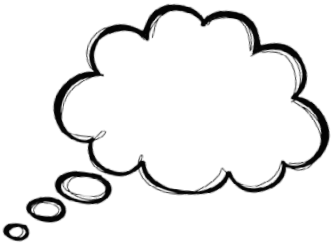

They all studied and practiced hard to make their dreams come true.

Learning is how you get ready for your future and dreams.

About My Dream

Let's think about our dreams together!
There are lots of jobs in the world.

Housekeeper, nurse, architect, entertainer, scientist, pilot, soccer player, soldier, captain, beautician, doctor, teacher, chef, painter, office worker, police officer, judge, firefighter, film director, employee
